File Preparation Tips

- Design artwork to print size listed
- Submit layered files in their native program
  (Photoshop, Illustrator and InDesign are compatible programs)
- Supply all image links to ensure quality
- Keep resolution of images at a minimum 100 ppi
  (View document at print size to preview image quality)
- Include fonts for any live text OR convert text to outlines
- Maintain a consistent colorspace in artwork and links
- Keep Pantone colormatches indicated as spot colors

X-FACTOR: A term describing the result of tension at all corners and connection points of an Xpressions skin when placed on a frame. The artwork will be stretched with the least amount of distortion at the center of each quad, and the most distortion within the outer 3-5" of the skin. It is not a live area, as the image will be visible.
