## Step 1. Assemble background frame

Lay pieces out flat and assemble in numerical order as shown. Numbers will be on the back side of the tube. When frame is complete, stretch background graphic over the frame starting at the top. Pull tightly all the way down assuring holes in graphic align with knobs on frame and secure with zipper.

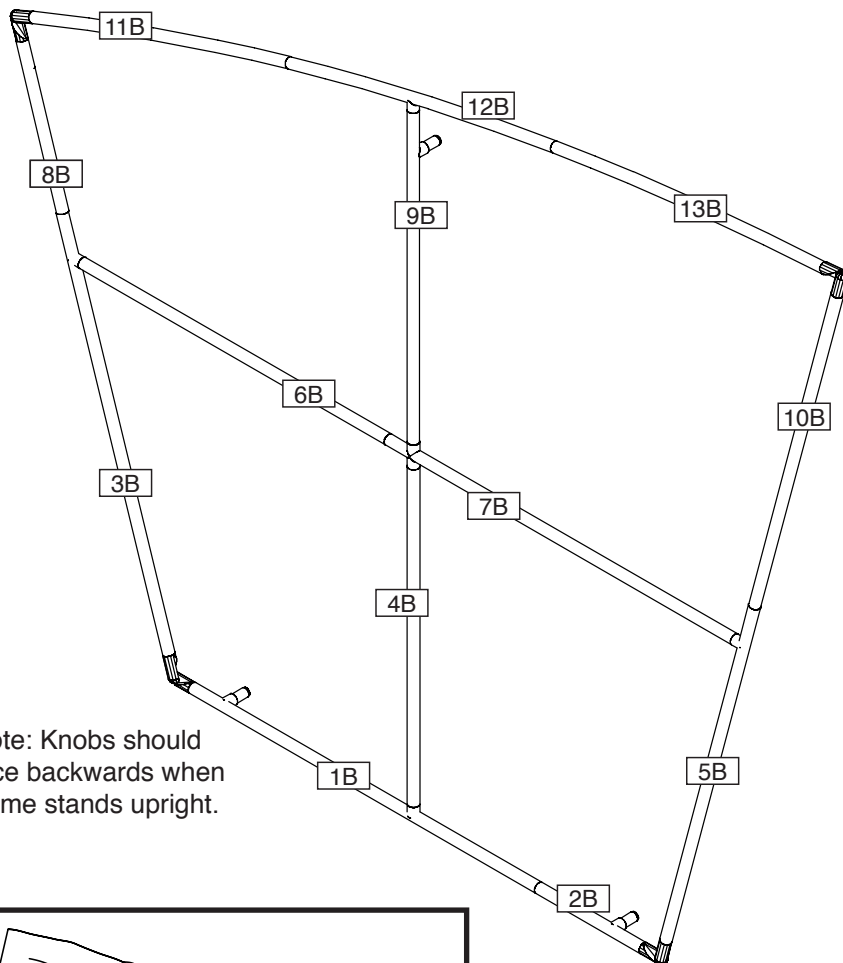

## Step 2.

Attach feet to background frame using detail shown below. Stand unit upright. Adjust the height of feet to ensure display is level.

### Step 3. Assemble foreground frame

Lay pieces out flat and assemble in numerical order as shown. Numbers will be on the back side of the tube. When frame is complete, stretch foreground graphic over the frame starting at the bottom. Pull tightly all the way up assuring holes in graphic align with knobs on frame and secure with zipper.

Note: Knobs should face backwards when frame stands upright.

Graphic will fit snugly over the frame with the zipper at the top.

Step 4. Attach foreground frame to background frame  
Attach two units together using 14B, 15B and 16B.

## Step 5.

Attach header to foreground frame where designated in diagram. Use tube clamp and header attachment detail below.

### TUBE CLAMP & HEADER

Attach header/graphic to part A. Place part A against tube. Gently tighten part B using hex key.
