

Exhibitor Products (Halos™)

Applicable Products:

HALO Series
HATP Series

1. Align poles and struts using corresponding number labels as reference (fig. A).
2. Slide graphic over halo frame and zipper it to complete graphic assembly (make sure eye hooks go into respective notches on graphic) (fig. B).
3. Unscrew forged shackle, mount to eye hook, and rescrew forged shackle back into place to complete assembly. Repeat for all eye hooks (fig. C).

NOTE: The number of poles and struts may differ from model shown below, but assembly is the same.
