MOUNTING INSTRUCTIONS

There are 4 x 1/4” through holes in the base plate. Placement is 90 degrees apart on a ring that measures 10 3/4” diameter. Use these holes for mounting.

Cautions:

- **Motor must be hung level**
- **Mounting hardware and mounting structure must support total weight including the weight of the motor and display**
- **Do not exceed rated weight capacity**
- **For indoor use only**

Failure to adhere to these cautions may cause the unit to fail, potentially resulting in serious injury from falling items.
