

8ft Dazzle LED Lightbox

Proof Date	Quantity	Job Number	Template Date
			08.11.2022

Finished size

8ft W x 1ft D x 89in H

- Resolution must be at least 100 DPI and no more than 125 DPI @ 100% actual print size
- If the template is created at half scale, you need to double the DPI to a minimum of 200 DPI
- For best results, all images in your file should be at the same resolution
- Check the resolution on your file. Zoom in to your artwork at 100% and examine for pixilation.
- Convert fronts to outlines. Do this as a final step and saved as a new file. Once converted, you can no longer edit the text via the text tool.

Please note that because of the way we see light, colors printed with ink on fabric look different to colors displayed on a computer screen. It is therefore essential that any specific required colors be specified by the client before printing. Providing Pantone colors ensures the colors are printed as close as possible to your corporate colors.
