*quantity of each part differs by size of display

Display Set-Up

Step 1

Begin by removing all parts from the carry case and place on a clean, flat surface. Ensure you have all the components listed above.

Step 2

Start by laying out Bottom Ends (1) and extend out feet.

Top View

Step 3

Connect Bottom Ends (1) by screw knob, pushing ends together and inserting knew knob through the provided hole.
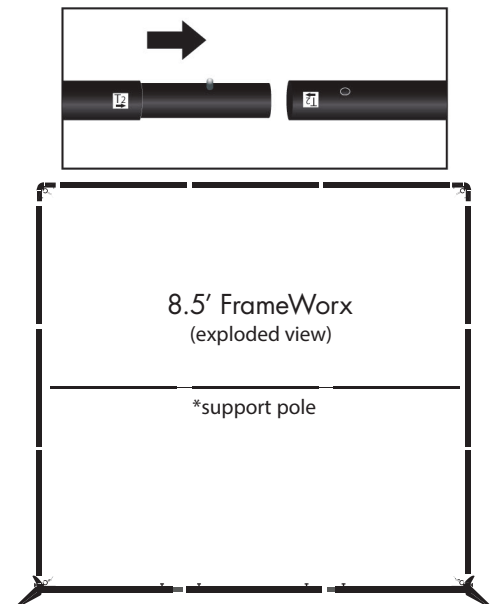

Models less than 30" wide can skip this step

*do not over tighten

Step 4

Continue to connect frame by connecting poles by their associated numbers. Larger displays come with a support pole that is inserted through the middle of the display (as shown below)
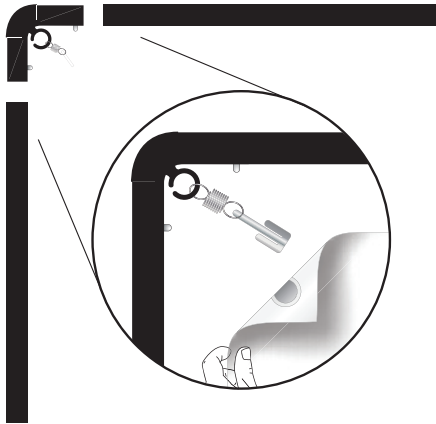

8.5' FrameWorx
(exploded view)

*support pole

Step 5

To attach Graphic (5), place grommets over the hooks in the corners of the display. Firmly grasp hook at end where it attaches to spring to avoid stress on plastic hook.

*each hook comes with two bracket so it can incorporate a banner for the front and back.
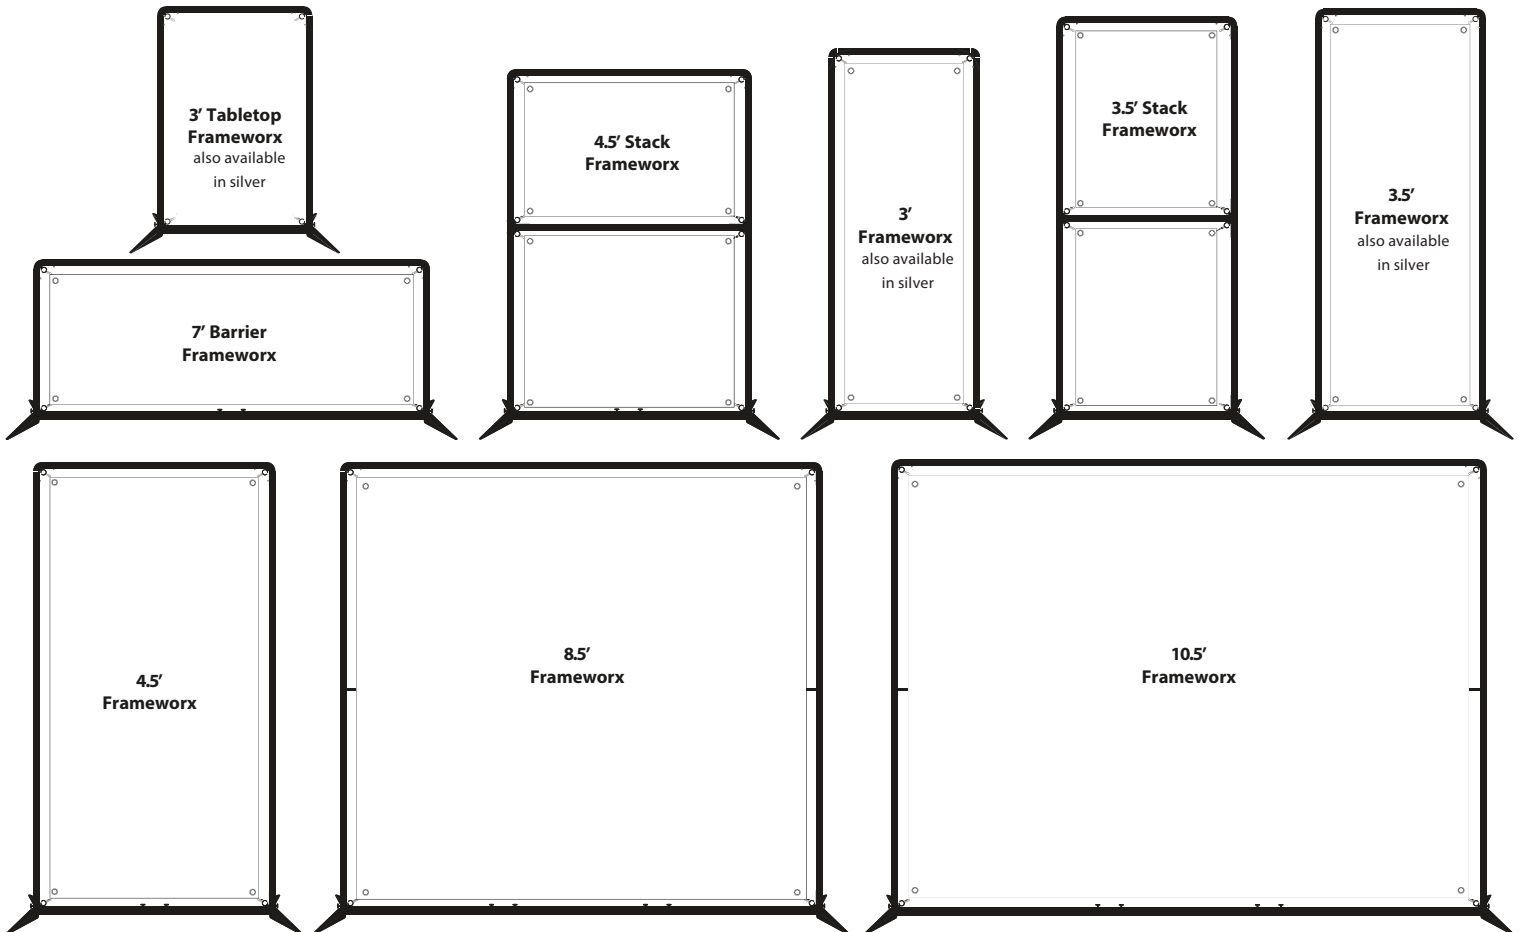

8.5' & 10.5' banners are only offered in No Curl Fabric

*graphics are available in three different materials,
- Aluminum Fabric
- No Curl Opaque Fabric
-13oz Smooth Vinyl (single or double sided)
