

Eurofit Monarch 6ft and 8ft

*6ft parts shown, 8ft parts are longer.

Table not included.

Display Set-Up

Step 1

Separate the Main Frame parts from the Sides. Unfold the Shock-corded poles (2, 3) and secure them in their extended positions. Connect the frame pieces by matching the numbers on the end of each pole, using the push buttons.

Step 2

Construct the Sides in the same way, matching numbers and clicking push buttons into place.

Step 3

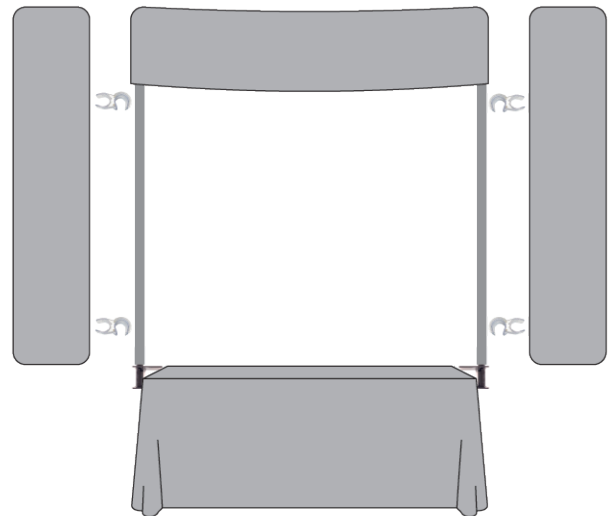

Fit the Main Graphic (8) to the main frame, fit the Side Graphics (12) to both Side structures, and zip them closed.

Step 4

Mount the Table Clamps (7) on the ends of the table by tightening the screws on their undersides. Once the clamps are secure, carefully lower the main frame onto them so that the Bottom Sides (6) slide onto the black cylinders.

Step 5

Attach one side of each Eurofit Clamp (11) to the sides of the main frame. One goes directly under the Graphic (8) and one goes directly above the Table Clamp (7). Carefully lift each of the Sides to be level with the Main Frame and attach them to the open ends of the Eurofit Clamps connected in Step 4.

Storage

Store in a cool dry location.

Care

To clean the frame, wipe with a damp cloth. To clean the graphics, wash on a cold, gentle cycle. Never dry clean. Steam clean for wrinkles and air-dry only.
